ITALO-AMERICANS.

A National Meeting to Be Held in Washington City

IN THE WORLD'S FAIR INTEREST

The Italian Government Will Be Urged to Accept the Invitation Extended by the United States to Participate in the World's Fair.

WASHINGTON, Sept. 10.—The failure of the Italian government to accept the invitation of the United States to participate in the world's fair, caused prominent Italian citizens in this country some time ago to urge Italy to change its decision. No answer was made to the request.

At a meeting held here yesterday of the Italo-American committee on promotion of the world's Columbian exposition, a body created at the meeting which urged acceptance of the invitation, the president, Dr. Verdi, reported that the previous resolutions had been followed through the proper diplomatic channel to the Italian government, and though eight weeks have elapsed no official answer has been received, and that under the circumstances he would suggest that a general meeting be held in Washington at which the Italo-Americans of the United States should be represented to give expression to the necessity of having the Italian government participate in the great exposition.

Mr. Caracristi, the secretary of the committee, agreed to the necessity of such an appeal coming from 1,500,000 Italo-Americans in the United States. There were differences, he said, between the two governments, for which the people as a whole of neither country are responsible; therefore, he said, the government of Italy should overcome sensitiveness when confronted with a national duty.

Professor Francis R. Fava, Jr., the vice president, said that the feeling of friendship between the two people had never more than now been cemented in closer bonds of mutual sympathy and appreciation, and that it would be only the fulfillment of a doubly patriotic obligation for the Italo-Americans to urge by concerted action the Italian government to be officially represented.

After a general discussion the following resolutions were adopted:

RESOLVED, That the Italo-American committee on promotion of the world's Columbian exposition hereby invites representatives from Italo-American associations and such other Italo-Americans who take deep interest in the welfare of the two nations, to meet in the city of Washington, District of Columbia, on Monday, the seventh day of December, 1891, to discuss and take action looking to the promotion of the fair by urging Italy to accept the invitation extended by the United States.

RESOLVED, That the Italian societies of the United States are hereby requested to correspond with the president of the committee on promotion at the earliest possible date.

REJECTED.

The Proposition of the Lessees of Tennessee's Convicts.

NASHVILLE, Sept. 10.—In the senate yesterday Mr. Early offered a bill to prevent whipping as a mode of punishment in any of the prisons of Tennessee.

Mr. Polk's bill to empower the governor to call out the militia was tabled upon recommendation of the committee having it in charge.

The house joint resolution, directing the state board of prison inspectors to order the sub-leased convicts to be returned to the main or branch prisons, owned by the original lessees, was rejected.

Curtis' military bill passed third reading. In the house the chairman of the penitentiary committee presented the memoranda of the proposition made by the lessees. The paper was unanimously rejected.

Why the Itata Case Was Abandoned.

NEW YORK, Sept. 10.—A special to The Evening Post from Washington says: It is learned that the abandonment of the case against the Itata is the result of an agreement between this government and the new Chilean government whereby the latter is to reimburse the United States for the expense incurred in the chase of the Itata. In return the congressional agents are freed from a further prosecution for a violation of the neutrality laws and the steamer.

Murderers Chased by Bloodhounds.

BIRMINGHAM, Ala., Sept. 10.—At Georgiana, Butler county, Ala., yesterday morning Joseph Tonart, a prominent merchant, was found in his store with his throat cut and his skull crushed. It is supposed to be the work of two negro tramps, whose object was robbery. Tonart slept in a room adjoining the store. The murderers broke in the window. Officers are in pursuit with bloodhounds.

Only News from Chili.

WASHINGTON, Sept. 10.—The only Chilean News of an official character received yesterday was contained in a cable dispatch from Admiral Brown to the navy department. The admiral said the Baltimore arrived yesterday at Malendo, Peru, and placed the Chilean refugees on shore and would return without delay to Valparaiso.

Robbed in His Own Door Yard.

LIMA, O., Sept. 10.—John Ryan, living on West Spring street, reported to the police yesterday that he was knocked down and robbed in his own door yard the previous night. He accompanied his wife and son home and went around to the rear door, where he was assaulted by three men, one of whom struck him in the mouth, knocking out his teeth. They went through his clothes, securing about \$7 and made their escape.

PAUL JULES GREVY DEAD.

France Mourns Over the Bier of an Ex-President.

PARIS, Sept. 10.—Francis Paul Jules Grevy, ex-president of the French republic, died Wednesday.

The ex-president died of pneumonia at his home at Mont-Sous-Vaudrieux, in the Jura.

M. Grevy was born, according to the usual statements, at Mont-Sous-Vandrieux, in the Jura, Aug. 15, 1813. The register of his birth, however, shows the fact to be that he was born in 1807. He was educated at the college of Polygny, studied law in Paris, and in due course was admitted as an advocate. He took part in the revolution of 1830, and in 1848 was appointed commissary of the provincial government in his department, and was sent to the constituent assembly from the Jura. In the legislative body M. Grevy, while reserving the right of independent action, generally voted with the Extreme Left.

He opposed the government of Louis Napoleon, and protested against the expedition to Rome. After the coup d'etat he withdrew from politics, but was in 1868 again returned as deputy for the Jura. On Feb. 17, 1871, M. Grevy was elected president of the national assembly, in which important and, at the time, trying position, he exhibited remarkable tact, judgment and moderation. In 1873 he resigned this office, being succeeded by M. Buffet. In 1876 he was returned to the national assembly by the Arrondissement of Dole in the department of the Jura, and on the meeting of the chamber he was elected its president. He was re-elected by the new chamber of deputies Nov. 10, 1877, and again in January, 1879.

After the resignation of Marshal McMahon, M. Grevy was elected president of the French republic for seven years on Jan. 30, 1879, when 568 votes were recorded in his favor, 99 being given to General Chanzy, (against his will), 5 for Gambetta, 1 each for General L'Admirault, the Duc D'Aumale, and General Gallifa. Forty-three voting papers were blank, and eighty-seven senators and deputies were absent.

M. Grevy was succeeded by M. Carnot, the present president.

LOCOMOTIVE BOILER EXPLODES.

Three Trainmen Killed and One Injured.

Passengers Escape.

OYSTER BAY, L. I., Sept. 10.—The boiler of the locomotive of the regular passenger train on the Long Island railway, scheduled to leave here at 7:08, exploded Wednesday morning with terrific force while the train was standing at the station. Engineer Donaldson, Fireman Dickinson and Brakeman Mahoney were instantly killed, their bodies being thrown some distance and horribly mutilated.

The locomotive was completely wrecked. There were a large number of passengers on board the train, but so far as known none were seriously hurt. Conductor Jones, of the train, who was standing near the locomotive at the time of the explosion was thrown several yards and badly scalded. His condition is critical. It is supposed that low water caused the explosion. The engine was inspected but a short time ago.

BLEW OUT THE GAS.

Two Stark County Men Asphyxiated at Toledo.

TOLEDO, Sept. 10.—At 8 o'clock yesterday morning James Boyd and J. C. Elsas, of Waynesburg, Stark county, were found asphyxiated in a room in the Hotel Jefferson in this city. They came to Toledo Wednesday night on business, and retired about 11 o'clock.

The chambermaid noticed a strong odor of illuminating gas coming from their room the next morning. She knocked at their door, and, after receiving no response, the door was forced open and the men were found dead. It is supposed that they blew out the gas. Boyd was about sixty-five years old and Elsas thirty-five. They were respectively president and secretary of the Waynesburg Brick company, and came to Toledo to close a large contract for supplying fire brick for paving purposes.

Only a Blackmailing Scheme.

CHICAGO, Sept. 10.—Henry A. Christy, president of the Hutchinson and Southern railway, who is said to be wanted in Hutchinson, Kan., returned to his office in this city from St. Louis yesterday. He denies in detail the allegation of the Kansas people who charge him with embezzlement and ask him, as president of the company, and E. E. Wiese, secretary of the concern, to account for \$250,000. He pronounces the affair a blackmailing scheme, and says advances toward a settlement upon the payment of \$5,000 have several times been made. The same parties, he says, brought suit against him a year ago, but when he showed a disposition to fight it out and not settle, the suit was dropped.

Switchmen Strike.

LIMA, O., Sept. 10.—The night switchmen on the Lake Erie and Western railroad at this point went out on a strike last night because one crew was ordered off by Trainmaster Cook on account of a slack in the work. The police were called upon to prevent a disturbance at one time. No effort will now be made to get out trains till General Manager Bradbury is heard from.

Lake Schooner Foundered—Six Drowned.

CHICAGO, Sept. 10.—A telegram received here by C. H. Fleming states that the schooner Persia foundered on Lake Ontario on Saturday. Her crew of six men are supposed to have gone to the bottom with the ill-fated vessel. The Persia was a Canadian boat and valued at \$6,000.

LANDING PAUPERS.

Startling Discovery Made at the New York Barge Office.

A WELL ORGANIZED SCHEME.

Hebrew Immigrants Gaining Admission to This Country Under False Representations—False Bills of Exchange Presented to the Barge Authorities—A Thorough Investigation to Be Made.

NEW YORK, Sept. 10.—Frequent complaints have been made of late to the immigration authorities here that Hebrew immigrants, who would otherwise be debarred as undesirable are gaining admission to the country under false pretenses. Their plan is to present false bills of exchange when questioned by the registry clerk at the barge office as to their financial condition, and thus avoid being returned to Europe as paupers.

The scheme was unearthed a few days ago through the ignorance of a Danish emigrant named Moses Schulman, who came here on the steamer Denmark with his family. He was penniless, but when asked how much money he possessed, exhibited a bank check on the "State bank," marked "payable at No. 45 Delancey street." The check was valueless, and when questioned closely Schulman admitted that he was trying to deceive the authorities in the matter of his financial condition, so he and his family might not be debarred. He was detained at the barge office and will meet the fate he tried to escape.

Upon investigation it was learned that a well organized scheme was in operation to deceive the barge office authorities in regard to the means of immigrants and a list of names of the sub-agents of the steamship and railroad companies who may be brought to book for engaging in this illegal business has been prepared. Courtland C. Manning, United States treasurer of immigration at this port, tells a reporter that he proposes instituting at once a rigid examination of these charges, and that, as the Hebrews were represented to him as being the most persistent violators of the law in this regard, he had enlisted the services of Meyer Reinherz, the immigration agent of the United Hebrew charities, in this city, to assist him in putting a stop to the practice. The ticket scalpers of the Hebrew district of this city, in and around Essex, Forsythe, Hester and Division streets, are among the persons most suspected in the matter, and to them the attention of the authorities will first be given. Where persons are found guilty the immigration authorities will secure their arrest and punishment.

GONE WRONG.

Paying Teller of a Philadelphia Bank Arrested for Embezzlement.

PHILADELPHIA, Sept. 10.—Oliver C. Wilson, Jr., paying teller of the Produce National bank, of this city, has been arrested, charged with embezzling \$2,500 of the bank's funds. An official of the bank tells the following facts: "We did not suspect anything wrong with the young man, but a few days ago, during one of our regular examinations, it was discovered that Wilson was short \$2,500 in his accounts. When confronted with proofs of his guilt he did not deny the charges, but said he had been led into evil dissipation and gambling on the Gloucester races."

"We have nothing to do in the arrest and criminal proceedings, as we are amply secured by a bond of \$10,000 of the American Surety company, of New York, who are the bondsmen of the young man, and I suppose that they are also amply secured. The defalcation is the result of months of small peculations, which were easily discovered when the books were examined."

Wilson was arraigned before Magistrate Milligan yesterday for a hearing. Cashier Yates, of the Produce National bank, testified that Wilson's peculations aggregated \$2,651.92. The accused was held under \$4,000 bail for trial.

Those who know the young man intimately are of the unanimous opinion that it is a case of a good-hearted young fellow gone wrong through reckless generosity and thoughtlessness.

INDIANA RAILROADS.

Their Assessed Valuation Doubled by the State Tax Commissioners.

INDIANAPOLIS, Sept. 10.—The railroad owners of Indiana will throw up their hands in amazement when the railroad values fixed by the state board of tax commissioners is made public. It is known that the assessed value of the railroad property in the state has been doubled. On some of the big property it has been trebled. Marion county profits most by this radical increase in valuation. The Belt railroad has been assessed by the board at \$3,000,000, and other railroad properties within the county have been increased proportionately.

Before it was known that the state contemplated such a remarkable increase in railroad valuations, City Controller Woolen was furnished with an estimate of the taxables of Indianapolis. The estimate was \$58,000,000. Yesterday an official who has been put in possession of information as to what the state board has done, figured out that the assessed value of the property in Indianapolis will approach near \$100,000,000. "It wouldn't surprise me," said he, "if the valuation reached \$100,000,000. In fact, I wouldn't be surprised if it exceeded that."

Fell from a Building.

LAFAYETTE, Ind., Sept. 10.—Frederick Reitmeyer, a tinsmith, aged twenty years, fell from a building yesterday and was instantly killed, his neck being broken.

SAVED FROM DROWNING.

Miraculous Escape from Death of an Indianapolis Peddler.

INDIANAPOLIS, Sept. 10.—Early yesterday morning three employes of the water company saw a man and horse floating down White river just above the water gallery, and it soon became evident that the horse was dead. The three men rowed out to the horse and discovered that the man, who was hanging to the animal's neck, was unconscious and seemed to be hanging on by one of his arms, which was entangled in the harness on the horse.

He was taken to the hospital, where he was found to be perfectly numb from the cold, but nothing with reference to his being in the water could be learned from him. He mutters incoherently of some one whom he calls George and who he says was with him. From papers on his person he proves to be Michael Welsh, a well known peddler. It is believed that he drove into the river to water his horse and that the animal became entangled in the harness and was drowned. No money was found on his person, and the authorities are inclined to believe that Welsh has been a victim of foul play.

RAILWAY POSTAL CLERKS.

Annual Reports Made by the Officers of the National Association.

WATERTOWN, N. Y., Sept. 10.—The annual report of the secretary of the Railway Clerks' association now in session at Alexandria bay shows that \$24,000 were paid to beneficiaries during the year, leaving a balance of \$4,349.35. The number of members admitted during the year was ninety-one; number dropped, 123; number of deaths, seventeen, leaving the total membership 2,154.

The salary of the secretary and treasurer has been raised from \$600 to \$1,000 a year for every 250 members.

President Welch, in his report, says that since the association organized in 1874 there has been paid to beneficiaries \$260,649.50. At the annual meeting in 1885 the total membership was but 209. During the fiscal year ending June 30, 1891, the total number of deaths in the railway mail service was thirty-eight, of which thirteen or more than 27 per cent. were from accidents or injuries received in accidents.

Postmaster Sparrey advocated pensions to postal clerks after they had grown old in the service.

NERVY SAFE CRACKER.

Springfield Police Entirely Too Slow to Capture a Burglar.

SPRINGFIELD, O., Sept. 10.—One night three weeks ago three safes were cracked in turn and the cracksmen got quite an amount of booty.

At Rawlins' lumber office a botch job was made, the explosion evidently being premature, and one of the burglars was badly injured, judging from the trail of blood left behind.

The next day a stranger, with a badly burned face and hand, entered the city hospital for treatment. He claimed that he was burned in a gasoline stove explosion. It now turns out that he is the injured cracksmen, believed to be Jimmy Mulligan, with a record.

A letter to a sister in Chicago was intercepted and first threw light on the affair. Mulligan, if it was he, got up and fled and is now being sought after by the police.

Wanted to Kill His Brother-in-Law.

BOSTON, Sept. 10.—John Cotter was arrested in this city last night charged with conspiring to kill his brother-in-law, Luther Rowe, a prominent real estate dealer. Cotter took a man named William Butler into his confidence and the latter reported the matter to Mr. Rowe. Rowe informed the police, who arrested Cotter. Cotter was loaded down with weapons when taken into custody. He claims that Rowe swindled him out of a large amount of property. Cotter tried to assassinate Rowe once before and served two years for the crime.

Big Libel Suit Pending.

INDIANAPOLIS, Sept. 10.—Some months ago Attorney William Henderson published a number of letters and made statements to newspaper reporters charging that General Sturm had been compelled to bribe Mexican officials in order to get a claim against Mexico favorably considered by that government. It now develops that Sturm has ordered his attorneys here to prepare the papers in a libel suit against Henderson, and that he will demand \$50,000 damages in consequence of the statements made.

Dynamite as a Rain Persuader.

LITTLE ROCK, Sept. 10.—Since the operation of General Dyrenforth's rain producing apparatus in Texas keen interest has been manifested here in the phenomenon. The Arkansas Granite company, operating quarries at Fourche mountain, near this place, use dynamite, the charges being placed on the crest of the mountain, which is very lofty. After explosions, the latest occurring Tuesday evening, clouds almost immediately appear and showers descend.

Took the Money and Skipped.

LIMA, O., Sept. 10.—Fred Bennett, manager of John Bice's branch shoe store, has turned up missing, together with the cash receipts for several weeks' sales, amounting to hundreds of dollars. Bennett is thought to be in Virginia.

Reciprocity and Prices.

To the rather stupid inquiry of a correspondent as to "why coffee has not become cheaper since the reciprocal treaty with Brazil went into effect" a Republican organ replies that "it was not expected that the Brazilian treaty would affect the price of coffee, which has been coming into the United States free since May 1, 1892." It explains that "the treaty relates entirely to duties on American products entering Brazil."

Precisely. This is an admission of the truth of the statement that the much-vaunted reciprocity treaties unfavour foreign, but do not make cheaper to American customers one single article imported from these countries.

The people of Brazil and of Cuba are enabled by these treaties to buy American food products and certain manufactured goods, machinery and tools free of tariff taxes, and consequently cheaper in many instances than they are sold to our own people. But an American who buys any of these articles imported from those or any other countries must pay a tax upon them averaging nearly 50 per cent. Or, if he buys a protected American product he is obliged to pay a bounty-enhanced price, or else protection fails to protect.

This is the jug-handled reciprocity which is expected to delude American voters.—New York World.

"It happened this year that we have a large grain crop coincidentally with poor crops in Europe," remarks the Cincinnati Enquirer. "Hence there is a large demand for our cereals. Now, just listen to the authors of the Robber Tariff rejoicing over 'the situation.' They claim to have brought it all about themselves, and they gloat with great glee. And yet, when they were pushing through the Robber Tariff, they continuously insisted that all this country desired was 'a home market.'"

A Joke on Judge Beckner.

The Frankfort correspondent of the Courier-Journal, detailing the doings of the Constitutional convention, says: "During one of the revisory committee's sessions Colonel George Washington got off a good joke on Judge Beckner. The latter had proposed a good many amendments, and Colonel Washington thought he would score him up a bit by a very radical alteration. Chairman Bronston and other members of the committee were notified, and agreed to assist him. So when the education article, which is largely a creation of Judge Beckner's, was reached, Colonel Washington got up and very seriously stated that the article had given rise to much criticism all over the State, and was very unsatisfactory to nearly all of the people. He, therefore, moved that the entire article be stricken out. His motion carried almost unanimously, to the great astonishment of Judge Beckner, who immediately took the floor to protest. Before he got fully straightened out, however, every one of the others present burst into a loud guffaw, and the Judge caught on."

Decca's Concert to-morrow Night.

The diagram of seats at Nelson's for Decca's concert indicates that the songstress will have the biggest house of the season. A few more desirable seats may yet be had, but only a few more. People who want to secure good locations, should select their seats at once, as big delegations from the country are expected to-day and to-morrow.

The concert to-morrow night will be the only opportunity given Mason County people to hear Mlle. Decca sing, and every man, woman and child should take advantage of it. She is undoubtedly the greatest lyrical soprano in the world. Her voice is simply a revelation, covering three octaves, which is a half octave more than Jenny Lind herself could sing. Eminent critics say, too, that Decca's voice is much more sweet and sympathetic than Patti's.

It follows, therefore, that those who fail to attend the concert to-morrow night, will miss the opportunity of a life time. The program has been arranged especially to please the friends of Mlle. Decca, and will include great arias, charming cavatinas, sweet songs and popular pieces. To hear Mlle. Decca sing some of these same selections at the great musical festival in Boston in January will cost every one a five-dollar bill; and yet the Maysville people have a much richer program at their very doors for one-fifth that sum. A word to the wise is sufficient.

A Steel Plant.

There is a move on foot to establish a steel plant at this place, and the probability is that it will be successful.

The articles of incorporation of the company have been prepared and acknowledged, but have not yet been placed on record.

It is stated that the company has leased a lot adjoining the fuel gas works in the West End for the location of the plant. Prominent iron manufacturers of Cleveland, O., are said to be interested in the new enterprise.

The BULLETIN has not been able to secure any further information in regard to the matter, but hopes to have the pleasure of placing all the facts before its readers to-morrow.

Cincinnati Tobacco Market.

(Tuesday.)
The week's business opened with large offerings, but of a generally poor class of tobacco, consisting mainly of common trash, lugs and nondescripts. There was shown for these grades a fair demand, with no quotable change from last week. Mediums, common leaf and red tobacco did not find much favor with buyers and prices on this sort are not satisfactory. What color trash, lugs and good and full leaf was offered met with a ready sale at full figures.

THAT EDWARDS ESTATE.

An Investigation Doesn't Pan Out Very Well For the Claimants.

The investigation of that alleged immense Edwards estate doesn't seem to pan out very well for the many people who expect a slice of the fortune one of these days. Several Mason County citizens are among those interested.

"It will be remembered," says the Courier-Journal, "that the hopes of many real or supposed heirs of Robert Edwards to inherit large sums from him are based upon the allegation that about one hundred years ago he leased an extensive tract of land, forming a large part of the site of New York city, and that, the lease having recently expired, the land with its improvements reverts to the heirs of the lessor. The quantity and value of the land, as well as its precise location, are variously stated, some authorities putting the value as high as four hundred millions of dollars, while others give more conservative estimates.

"The supposed heirs to this vast estate have held many meetings for conference. Unfortunately they have confined their efforts largely to trying to convince one another that they are the genuine heirs of the genuine Robert Edwards, in the mean time neglecting to inquire whether there ever was a genuine Robert Edwards, such as has been described, and whether he had any genuine estate, or made any genuine lease of it to anybody. A lawyer who was consulted by some of them last spring suggested that these important questions ought not to be forever pre-empted, and his counsel had so much good sense in it that a portion of the heirs acted upon it. Some of them, in Connecticut, employed Mr. Dailey, of New Haven, while others, residing in Ohio, secured the services of Mr. McNeil of that State. The result of these investigations is thus given in the New Haven Palladium:

"A thorough examination of all records has been made in the city of New York. It is found, first, that no volume of records is missing; second, that no man named Robert Edwards gave a lease of property situated in the city of New York from the year 1750 to the year 1800. This demolishes the Edwards estate rumors. R. W. McNeil, a lawyer living at Karden, O., was retained some months ago by the Ohio Edwardses to look the matter up. Mr. McNeil has finished his work, which included examination of records in the War Department at Washington, where he found that one Robert Edwards, during the War of the Revolution, enlisted in the State of Pennsylvania, was taken prisoner, was paroled, enlisted from Virginia, and died in Ohio, aged one hundred and one years. The Ohio descendants of this man also have a tradition that he was formerly from Connecticut and had large possessions in the city of New York. Attorney McNeil recently called upon Mr. Dailey, after a most careful and thorough examination of all records, covering more than fifty years. He has found no record of Robert Edwards giving a lease to the British Government or to any other lessee."

At Covington, Julia Hubbard has sued Spencer Hubbard for a divorce, because he has failed to provide for her. The parties were married in this county in 1883.

THE date of the funeral of Mrs. Ella Pickett Oldham has been changed. It will take place to-morrow afternoon at 2 o'clock, at the family residence on Grant street.

C. AND O. excursion tickets, cheap rate, long limit. Cincinnati excursion tickets will be on sale here Friday and Saturday, September 11th and 12th, at \$1.50. Tickets good returning on any train until Monday, September 13th.

QUITE a number of persons will attend the Bruce-Evans wedding at Maysville. Miss Lella Semple, Miss May Morris and Miss Walker, of Georgetown, Ky., will be the bridesmaids, a trio of beautiful ladies.—Covington Commonwealth.

CAPTAIN J. M. THOMAS, of Paris, lost his large planing mills by fire at Ford, Clark County, Tuesday night. On June 8 his large planing mills at Paris were burned by an incendiary. He had no insurance on his mills at Paris, and probably none at Ford.

MRS. MARY JANE MOORE died a few days since at Brownsburg, Ind., of obstruction of the bowels, and her remains were shipped through here yesterday to Ewing, Fleming County, her former home, for burial. Her husband was formerly a prominent tobacco dealer of Ewing, but moved from there to Indiana a few years ago.

NOW THAT the elections and fair, racing, &c., are over, and the wheat and tobacco is being handled generally, Frank Owens Hardware Co. are bringing to the front for sale hunting coats (cavass and leather), bird bags, loaded shells, ammunition of all kinds, and sportsmen's wear generally. Call and equip yourself in full for the winter's sport. Prices will suit the purchaser.

THE K. C. passenger train from Cincinnati to Richmond yesterday afternoon struck four horses near Cynthia, derailling the engine. Fortunately the passengers and crew escaped without injury. One of the horses was killed and the others crippled. The Maysville train was held at Paris over three hours for some passengers who were aboard the wrecked train, and it was a hungry and sleepy crowd that reached here this morning at 1 o'clock.

REV. C. P. WILLIAMSON, pastor of the Christian Church in Richmond, has accepted a call to the Christian Church in Atlanta, Georgia. He will leave in October.

THE people of Maysville, irrespective of denomination, were glad to learn that conference re-appointed Rev. J. E. Wright to the pastorate of the M. E. Church, South.

"SIN AND Suicide" will be the subject of Rev. C. S. Lucas' sermon at the Christian Church next Sunday night. "What Was Moses' Sin?" will be the subject of the morning sermon.

THE Constitutional convention yesterday decided that the Auditor, Superintendent of Public Instruction and Clerk of the Court of Appeals shall be ineligible to succeed themselves, this provision to apply to the recently elected officials.

JOHN McDONALD died this morning at 5 o'clock at the home of his sister on East Front street. He had been suffering several weeks with dropsy. Deceased was forty-four years old, and resided formerly at Chicago. Funeral this afternoon at 3 o'clock at St. Patrick's Church.

POSTMASTER DAVIS, acting under instructions from the Department at Washington, is inspecting the offices of this county. He has visited Helena, Helena Station, Mill Creek, North Fork and Bernard, and will take in Mayslick, Sardis and the offices in that section next.

OWING to increased patronage and the demand for more commodious accommodations, I have leased for a term of years the second story of Mr. George T. Wood's drug store, where I can be found after the first day of October.

s10dtf G. M. WILLIAMS, Dentist.

THE city of Maysville will be within twenty days the best known city in America. The recent fuel gas invention will create more excitement throughout the country than all the oil and gas wells put together. Frank Owens Hardware Company have just received, clean and fresh, their vast stock of guns, imported direct from foreign makers, breech-loaders and muzzle-loading; also American makes, all of which they will sell very low.

MINER'S MAXIMS!

IT IS JUST AS WELL to Keep Your Weather Eye Open, Even Though There be no Indication of a Storm.

It is all very well to talk of suspicion haunting the guilty mind, but guiltless minds often have a good many reasons for harboring it. You can leave your suspicions at home when you deal with MINER—if you happen to have any.

WHY?

Because he will treat you just as he would like to be treated if he happened to be a purchaser instead of a seller of Shoes. You can bank on that proposition every time.

He isn't a novice in the Shoe business and flourishes of trumpets are not in his line. He believes in honest Shoes, honest methods and honest representations. He doesn't give his Shoes false certificates of character.

Just as surely as he knows what they are, so surely will you know what they are before they pass into your possession as purchasers. Other things may disappoint you, but Miner's Shoes will not.

A Trades Unions Congress at New Castle, England.

PRINCE OF WALES SNUBBED.

The Delegates to the Labor Assembly Have No Use for the Royal Family Except the Queen—Other Dispatches From Across the Atlantic.

LONDON, Sept. 10.—The trades union congress reassembled at New Castle yesterday. It begins to be remarked that among the new and some of the old unions the socialistic ideas are warmly espoused. Messrs. Burns and Tillett, among others, are strongly opposed to Burland Fenwick, and it now seems probable that socialistic discussion, if not action, will play a prominent part in the deliberations of the congress. It has been voted to require each society represented to pay into the general treasury £1 for each 1,000 members or less. Hitherto the entrance fee has been ten shillings for each council. It was voted that any bill reducing or fixing the hours of labor ought to be of a permissive character.

A serious uproar was caused by a remark of Mr. Mawdsley, an operative cotton spinner, who, alluding to what he called the flowery language used by some of the delegates, said that flowers of speech would not solve labor problems though "they might gain the applause of ignorant mobs." The scene that followed was of a most exciting character, and some of the delegates showed a disposition to do personal violence to Mawdsley. The cries of "withdraw" were deafening, and the uproar did not cease until Mawdsley withdrew his remark and apologized. He was then permitted to proceed.

The refusal of the trades congress committee to propose a toast that would include the Prince of Wales is regarded here as an echo of the widespread non-conformist sentiment which has set a mark of condemnation on the social life of the prince. The discussion in the committee of arrangements is said to have been very pointed, and took in the whole range of the royal brood of Queen Victoria. One delegate boldly asserted that the family of the queen, a part from herself, had no claim whatever on the country, and that it was an outrage that the people should be expected to contribute to their support. The long list of royal descendants was canvassed in vain for a name that workmen could consistently honor by special mention at their banquet, but not one could be found worthy, on his own account, of any such testimonial. The baccarat trial was gone over, and altogether it was a discussion to make the ears of royalty tingle. The conclusion was reached that none should be honored but the queen.

War Preparations in Italy.

LONDON, Sept. 10.—The news that Italy is hastening to supply herself with a vast quantity of new rifles does not tend to allay the war feeling, as in the embarrassed financial condition of that country, no expenditure, even for military purposes, would be made except under a conviction of immediate necessity. The Italian fleet also has received instructions to be ready for service upon call, and many, both of officers and men, have been recalled from leave of absence. This action, however, like the notice to the German reserves, may, it is suggested, be simply precautionary.

Reserves Called Out.

LONDON, Sept. 10.—The Times correspondent at Madrid telegraphs that a profound sensation has been created in that city by the probable truth of a rumor that the reserves are to be called out, and a new army corps formed and forthwith mobilized. This, added to the fact that the Republican agitation in Coruna has become so grave in character that a mob now defies the civic guard, causes even the most optimistic to be apprehensive for the future.

Mormon Missionaries.

LONDON, Sept. 10.—In Great Britain and Scandinavia public attention is becoming aroused to the proceedings of Mormon "missionaries." Especial attention in England has been drawn to two young missionaries working in Lancashire and Yorkshire and much indignation is expressed by the people at the methods employed in the work of proselyting. It is possible that the attention of the British government would be called to the matter.

England's War Vessels Ready to Move.

LONDON, Sept. 10.—It is rumored that the British fleet now in the Mediterranean will shortly be ordered to Constantinople as a hint to the sultan of the possible fate of his city should he become too aggressive toward England. It is also stated, in a dispatch from Stamboul, that the British fleet, when it arrives, will pass the Dardanelles into the Black sea, and give notice thereby to Russia that the Black sea is not a Russia lake.

An Apology Demanded.

LONDON, Sept. 10.—The British ambassador at Constantinople, Sir William White, some days since despatched a vigorous note to the porte demanding an apology for affronts offered to British merchant vessels in the Dardanelles.

Chilian Cruisers in Copenhagen.

COPENHAGEN, Sept. 10.—The Presidente Pinto, Chilian cruiser, was in the roadstead yesterday and was kept under watch, in order to prevent her from shipping arms and men. The Pinto has sailed for Helsingfors.

Valuable Race Horse Injured.

CRAWFORDVILLE, Ind., Sept. 10.—While the drivers of several horses were exercising their animals on the race track at the fair grounds yesterday, the driver of Agnes Clay collided with the sulky attached to the pacer Jay Gould, Jr., causing the last named animal to run off. He was not captured until he had demolished the sulky and injured himself very badly. Peter Morningstar, of Franklin, his owner, says the animal is ruined. He recently refused an offer of \$4,000 for the pacer.
